

Introduction of newly developed ANTIMICROBIAL OP VARNISHES

We have developed following ANTIMICROBIAL OP VARNISHES.

SUPER M-AB OP VARNISH series (for Conventional Offset Printing)

SUPER UV M-AB OP VARNISH series (for UV Offset Printing)

They are registered voluntarily with SIAA (Society of International sustaining growth for Antimicrobial Articles).

These OP Varnishes, which offer excellent properties such as good glossiness, rub resistance, yellowing resistance and wet trapping, are suitable for ordinary printing method.

We are confident that these our newly developed ANTIMICROBIAL OP VARNISHES will be of service to your business.
