THE SPECIAL VIBRATION MIXER WITHOUT USING A STIRRING BLADE.
NO WASHING & NO MESS!!

**VPA-02 Speed Variable Type**

Time shortening & Great cost saver
Mixing by vibration, No need for stirring blade or Ink spatula
Odor & Dust free because materials in a container (*1) can be mixed with a lid kept closing.

**High Specification**

Low and high viscosity inks will be mixed in a few minutes.
Can be used for all type of materials, powder or solid.
Such as printing ink, paste, powder, coating agent (filling material), cosmetic (foundation) etc.

**Easy to install**

Usable conventional power supply (100v or 200v) so special electrical construction won't be necessary (*2).
By using pneumatic cramp, a container can be fixed in the mixer with one touch operation.

---

(*1): Soft or deformable containers are unusable for mixing.
(*2): It may be needed for electrical construction depending on the electrical condition at the installation site.
**SPEEDY** High speed vibration will enable materials to be mixed uniformly in short time.

In only 3 to 7 minute materials will be mixed completely.

1. Put the material to mix in a container.
2. Cover a container with a lid and set the container to VP series mixer.
3. About 3 minutes later from a start of mixing.

**EASY** Anyone can operate easily.

Only push the start button after setting speed and timer.

1. Switch panel is designed for easy-to-use
2. Pneumatic cramp type - Lockable with one touch operation
3. Locking lever type - Price priority model

**SPECIFICATION**

You can choose the model from a variety of the type of mixer according to your needs.
